10 točk – značilnosti Ravnikarjeve arhitekture

1 Nesegajoče dunajca prostora: Ravnikar je polje svoje naloge vedno razumel in praviloma obravnaval stavbe ali predel mesta v širšem časovnem in prostorskem kontekstu. *2 Notrel vogal:* Ravnikarjev vogal je vogal iskalca, ki se ne konča, ampak išče naprej. Vogal je pri Ravnikarju tudi doživetja, točka globoke osebne poetike. Opeke, betonske preklade ali steklo se v vogalu nikoli ne končajo ampak začenjajo svojo govorico, zdrsnejo prek, podobno kot to lahko vidimo pri Ravnikarjevih risbi, pri tako imenovanih »flot« matrikih, ker je poteza svinčnika vedno potepa prek roba. *3 Konstrukcija:* je za Ravnikarja izredna pomena. Pojavlja se kot element poetike plastične artikulacije. Pomembno vlogo pri Ravnikarjevih konstrukcijskih zasnovah ima statik prof. dr. Ervin Prelog, ki je sodeloval pri snovanju večine Ravnikarjevih objektov. *4 Sonatni princip:* je tema, v katero Ravnikar oblikuje svoje stavbne gmote, predstavlja kozola, ki se pojavlja bodisi kot moslini element bodisi kot "predoga" betonska greda. *5 Fasada:* Ravnikarjeva fasada je strukturalistična, s fasado vedno eksperimentira, je guba, da dila in zvoli. Značilna je inventiviza uporaba različnih materialov: plastika, opeka, strukturiran beton, steklo, corten. *6 Strehe:* Ravnikarju pomeni neke vrste psihološko kuliso, ki dovoče svojo skrajno obliko v nagrajenem natečajnem projektu za severni del Benetk (Troschetto). Značilno za Ravnikarjeve streho je vtis lebdenja, gibanja, odpornosti, nove dinamike. *7 Steber:* Ravnikarjev steber se spremeni v steber z gobastim zaključkom ali v steber s kolonimi izrastki, ki se všesih razprirajo kot dežnik ali pa kot prsti na roki. Praviloma se nosilna stebma konstrukcija izriva na fasadno površino in je značilno plastično razgiba. Ravnikar si vztrajno prizadeva spojiti, prepleti steber in strop, vertikalno in horizontalo, nosilno konstrukcijo s fasadno oblogo. Kot povezovalni elementa nastopi diagonala. *8 Diagonala:* se pojavlja v Ravnikarjevem ustvarjalnem procesu od umestitve objekta v prostor, do oblikovanja fasade, strehe in detajlov. Lahko zapišemo, da je Ravnikarjeva arhitektura na rek naša arhitektura diagonale. *9 Bekleidungsprinzip:* Semperjev Bekleidungsprinzip (princip oblačenja stavbe), je ena glavnih značilnosti Wagnerjeve in tudi Plečnikove arhitekture. Poigravanje s konstrukcijo pa je značilnost Francoske šole. Torej Ravnikar na izvirno naslanjanje principov Francoske in Nemške arhitekturne šole s taisto prepoznavno arhitekturno poetiko. *10 Vklapljanje historičnih napolt:* Karakteristično je pri Ravnikarju tudi vključevanje obstoječih historičnih objektov: zavzemanje za ohranitev in vključitev Kocbejeve palače, vključitve Nunskega samostana v kompleks Trga republike, vključitve obstoječih historičnih struktur (lak na Trgu republike, klasicistične orgelj) in zelenja v novo kompozicijo (ohranjen del Nunskega vrta pred Cankarjevim domom), ter usmerjanje pogledov nanje (zrcalnjen zvonika Tržaškega vodnika v okno Ravnikarkeja, postavitev Plečnikovega stebra na Gerečičevi, na mestu, ko gre v stala Plečnikova rojstna hiša) ter celo ponavljanje teh oblik v novi arhitekturi (fasada objekta Jakopičeve galerije na Slovensko cesto). *"Vračanje v zst pretekloti je lahko izvod za spričenje sosvojnega stroja, ki šele iščе prava vrata na hodniku minevanja, da bi postalo protigra, iz katere se bo razvilo novo razmerje sil."*

10 points – Characteristics of Ravnikar's Architecture

1 Surpassing of the given space: Ravnikar always extended the field of any task and was dealing with buildings or parts of the town in their broader time and space context. *2 The jutting out corner:* Ravnikar's corner is the corner of the seeker, which doesn't stop, but is searching further. The corner with Ravnikar is the point of experience, the point of a deep personal poetics. Brick, concrete slabs or glass never stop at the corner, but are starting their own language, they are slipping over in the same way as we could see with Ravnikar drawing, in so called -flot- plans, where the stroke of the pencil always runs over the edge. *3 The Construction:* This is very important for Ravnikar. It appears as the element of the poetics of plastic articulation. In Ravnikar's building civil engineer prof. dr. Ervin Prelog had an important role. He collaborated with Ravnikar on the buildings. *4 The Cosmos:* This is a never ending theme with which Ravnikar designed his building masses. It appears as a load bearing element in the form of a kozolo or a long concrete beam. *5 The Facade:* Ravnikar's facade is a structuralist facade, he always experimented with it, he folded it to breath and reflect. Characteristic is his inventive use of different materials: plastics, brick, structured exposed concrete, glass, corten. *6 The Roof:* This means to Ravnikar some kind of psychological scenery, which reaches its own limits at the competition project for the part of northern Venice, Troschetto, which was an award. For Ravnikar the roof typically expresses floating, fielding, atmospheric and new dynamics. *7 The Pillar:* Ravnikar's pillars are transformed into a pillar with a mushroom capital or into a pillar with console endings, which sometimes have an umbrella or an open hand shape. Usually the supporting pillar construction is also seen in the facade and is characteristically stirring it up. Ravnikar's attempt is to join, to plait the pillar and the ceiling, the vertical and the horizontal, supporting construction with the curtain wall facade. The diagonal acts as the connecting element. *8 The Diagonal:* In Ravnikar's creative process this appears from the placing of the building in space, to the pattern in the design of the facade, the roof and the detailing. We can say that Ravnikar's architecture is an architecture of the diagonal. *9 Bekleidungsprinzip:* Semper's Bekleidungsprinzip (the principle of dressing a house) is one of the main characteristics of Wagner's school and of Plečnik's architecture. Playing with the construction is a well known expression for the French school. So, Ravnikar is creatively catalysing the two principles into his own recognizable architectural poetics. *10 Incorporation of the historical finds:* Typical of Ravnikar's approach is the incorporation of existing historical buildings into a new composition: his efforts are well known to preserve and incorporate the Kocbej's Palace; the incorporation of the Nunnery into the Republic Square composition; incorporation of existing historical structures (flowing in Republic Square, neoclassical pan frame); incorporation of existing nature into a new composition (the preserved part of the Nun's garden in front of Cankarjev dom); orienting the views towards them (reflecting the church tower of Tržaško vodnik in the Ravnikarkeš windows, raising up the Plečnik memorial column on the site of the house where he was born) and also repeating the ancient shapes in new architecture (the facade of Jakopič Gallery towards Slovenska Street). "Coming back to the world of the past could be the starting point of the time machine, which is looking for the right door on the corridor of the passing away, to become an anti-action from which there will develop a new relation of power."

Seznam Ravnikarjevih del / *The list of Ravnikar's work:*

Legenda / *Key:* **zgrajeno** / *built* | **nateč.** / *competition* | **projekt** / *project*

1. Nagrobnik Zdenki Reja, Ljubljana, Žale, 1930 / *Zdenka Reja's Tombstone, Ljubljana, Žale, 1930*

43. Kamnite počitniške hiše na Krasu, načrt, 1946-1947 / *Stone summerhouses in the Karst region, designed 1946-1947*
44. Prenovitev Ljubljanskega gradu za kino, Ljubljana, natečaj, 1946-1947 / *Refurbishment of Ljubljana Castle, Ljubljana, competition, 1946-1947*
45. Glavna pošta, Ljubljana, natečaj, 1947 / *Central Post office, Ljubljana, competition, 1947*
46. Stanovanjska zazidava Ljubljanski Grad, dolina Ilovšica, 1947 / *Ljubljana Castle, partly constructed, 1947*
47. Stanovanjska zazidava Ljubljana-Sv.Križ, 1947 / *Housing Ljubljana-Sv.Križ, 1947*
48. Študija variant zazidave Nunskega vrta, Ljubljana, načrt, 1947 / *Study of the lay-out of the Nunnery garden, Ljubljana, designed 1947*
49. Regulacijski Nove Gorice, dolina Ilovšica, 1948-1950 / *Regulation plan of Nova Gorica, partly realised, 1948-1950*
50. Zgradba Okrajnega ljudskega odbora, Nova Gorica, načrt, 1950 / *Local community centre, Nova Gorica, designed 1950*
51. Gozdarski inštitut Ljubljana, 1947-1948 / *Forestry Institute, Ljubljana, 1947-1948*
52. Stanovanjski blok, Nova Gorica, 1947-1948 / *Housing blocks, Nova Gorica, 1947-1948*
53. Filozofsko-naravoslovna fakulteta, Skopje, Makedonija, 1947-1949 / *Faculty for philosophy and natural sciences, Skopje, Macedonia, 1947-1949*
54. Prezidij Ljudske skupščine LRS, Nunski vrt, Ljubljana, natečaj, 1947 / *Presidium of the People's Assembly of the People's Republic of Slovenia, Ljubljana, competition, 1947*
55. Ljudska skupščina LRS, Tivoli, Ljubljana, natečaj, 1948-1949 / *The People's Assembly of the People's Republic of Slovenia, Tivoli, Ljubljana, competition, 1947-1948*
56. Regionalni načrt svobodnega tržaškega ozemlja (STO), načrt, 1948-1949 / *Regional plan of the liberated territory of Trieste (STO), designed 1948-1949*
57. Študentsko naselje I, Ljubljana, natečaj, 1948-1957 / *Student campus I, Ljubljana, competition, 1948-1957*
58. Stanovanjsko naselje Kidričevo (Strniše), študija, 1950 / *Housing plan Kidričevo (Strniše), study, 1950*
59. Razširitev naselja Ljutomer, načrt, 1950 / *Extension plan of Ljutomer, 1950*
60. Tiskarna Ljubljana, načrt, 1950 / *Printworks Ljubljana, designed 1950*
61. Regionalni plan Kranja, natečaj, 1950 / *Regional plan of Kranj, competition, 1950*
62. Razširitev naselja Lendava, načrt, 1950 / *Extension plan of Lendava, 1950*
63. Grafična zasnova naslovnice revije Arhitekt, 1951 / *Graphic design of the front cover of the Architect magazine, 1951*
64. Spomenik ženskim demonstracijam med vojno ob vladni palači v Ljubljani, 1951 / *Monument of the war women's demonstrations, Ljubljana, 1951*
65. Spomenik ženskim demonstracijam med vojno pred Škofijo v Ljubljani, 1951 / *Monument of the war women's demonstrations, Ljubljana, 1951*
66. Spomenik NOB, Nova vas na Blokah, 1950-1952 / *Monument of the National Liberation war, Blokе, 1950-1952*
67. Montažno prehišno Articulum, prototipa, 1952 / *Furniture Articulum, prototypes, 1952*
68. Montažna enodružinska hiša iz lesenih odpadkov, načrt, 1952 / *Prefabricated single family house made of wooden timber, designed 1952*
69. Enodružinsko naselje Dravlje, načrt, 1952 / *Single family housing Dravlje, designed 1952*
70. Enodružinsko naselje Stožice, načrt, 1952 / *Single family housing Stožice, designed 1952*
71. Stanovanjsko naselje Magže, Bosna, načrt, 1952 / *Housing Magže, Bosnia, designed 1952*
72. Grobišče taborov Begunje na Gorenjskem, 1952-1953 / *Burial ground Begunje, Gorenjska Region, 1952-1953*
73. Grobišče talcev Draga, 1952-53, Begunje na Gorenjskem / *Grave of the hostages from Draga, Begunje, Gorenjska Region, 1952-53*
74. Vrediivni načrt otoka Ruissalo, Finska, natečaj, 1953 / *Urban plan of the Ruissalo Island, Finland, 1953*
75. Grobišče partizanov, Pokljuka, načrt, 1953 / *Partizans' burial ground, Pokljuka, designed 1953*
76. Razširitev trgovske hiše Nama, Ljubljana, natečaj, 1953 / *Extension of Nama department store, Ljubljana, competition, 1953*
77. Študija razvojnih možnosti Ljubljane, delno izvedeno, 1953 / *Study of Ljubljana development options, partly realised, 1953*
78. Šolski center, Novi Sad, Srbija, natečaj, 1953 / *School centre, Novi Sad, Serbia, competition, 1953*
79. Gimnazija Mostar, Bosna, natečaj, 1954 / *Secondary school Mostar, Bosnia, competition, 1954*
80. Menza v študentskem naselju, Ljubljana, natečaj, 1954 / *Canteen in the student campus,Ljubljana, competition, 1954*
81. Parlament Sarajevo, Bosna, natečaj, 1955 / *Sarajevo Parliament House, Bosnia, competition, 1955*
82. Urbanistični načrt Kranja, delno izvedeno, 1955 / *Urban plan of Kranj, partly realised, 1955*
83. Lesene počitniške hišice Fiješa, Istra, načrt, 1955 / *Wooden summerhouses, Fiješa, Istria, designed 1955*
85. Zgradba notranje uprave, Ljubljana, natečaj, 1955 / *State administration building, Ljubljana, competition 1955*
86. Regionalni načrt za Piranski poltotok, delno izvedeno, 1956 / *Regional plan for the Peninsula of Piran, partly realised, 1956*
87. Stanovanjska stolpnica Ljubljana, natečaj, 1956 / *Dwelling tower Ljubljana, competition, 1956*
88. Gostišče Ribarska koča, Ljubljana-Šmarna gora, natečaj, 1956 / *Restaurant Ribarska koča, Ljubljana, competition, 1956*
89. Zazidava centra Ljubljane, natečaj, 1956 / *Lay-out for the Ljubljana-Centre, competition, 1956*
90. ČZP Ljudska pravica, Ljubljana, 1957-61 / *Publishing house Ljudska pravica, Ljubljana, 1957-1961*
91. Banka Celje, Celje, 1959 / *Banka Celje, 1959*
92. Urbanistični načrt Ljubljane, natečaj, 1957 / *Plan for the Ljubljana Region, competition, 1957*
93. Idejna zasnova 5000 prebivalcev, načrt, 1958 / *Plan for the real neighbourhood for 5000 people, 1958*
94. Spomenik NOB, Zgornji Ig, 1958 / *Monument of the National and liberation war, Ig, 1958*
95. Spomenik NOB, St. Peter, Pivka, 1958 / *Monument of the National and liberation war, St. Peter, Pivka, 1958*
96. Nacionalna knjižnica Beograd, Srbija, 1958 / *National library, Belgrade, Serbia, competition, 1958*
97. Hotel in kulturni dom Crna na Koroškem, 1958-1961 / *Hotel and cultural centre Crna in Koroška Region, 1958-1961*
98. »Hauptstadt Berlin«, natečaj, 1958 / *»Hauptstadt Berlin«, competition, 1958*
99. Trubarjev antikvariat, Ljubljana, 1959 / *Second-hand bookshop Trubar, Ljubljana, 1959*
100. Trg republike, Ljubljana, 1960-1973 / *The Republic Square, Ljubljana, 1960-1973*
101. Stanovanjska stolpnica, Ljubljana, 1958-1960 / *Dwelling tower, Ljubljana, 1958-1960*
102. Dve stanovanjski stolpnici Hrvatski trg, Ljubljana, 1958-1961 / *Two dwelling towers Hrvatski Square, Ljubljana, 1958-1961*
103. Gradbena fakulteta, Ljubljana, 1960-1966 / *Faculty for Civil Engineering, Ljubljana, 1960-1966*
104. Banka Kranj, Kranj, 1961-1962 / *Bank Kranj, 1961-62*
105. Poslovna zgradba Trg VII. Kongresa, Ljubljana, natečaj, 1960 / *Office building Trg VII. Kongresa, Ljubljana, competition, 1960*
106. Zazidava med Tržcem, Dolmatinovo in Mikloičičevo, Ljubljana, natečaj, 1963 / *Lay-out Tržca-Dalmatinova-Mikloičičeva, Ljubljana, competition, 1963*
107. Zdravstveni dom Ljubljana-Bežigrad, Ljubljana-Bežigrad, natečaj, 1959-1960 / *Health centre Ljubljana-Bežigrad, Ljubljana, 1959-1960*
108. Hotel, Kranjska Gora, 1960-1961 / *Motel, Kranjska Gora, 1960-1961*
109. Poslovna zgradba Slovenijales, Ljubljana, natečaj, 1959 / *Office building Slovenijales, Ljubljana, design 1959*
110. Mestna galerija Beograd, Srbija, natečaj, 1960 / *Modern Gallery Belgrade, Serbia, competition, 1960*
111. B-smer študija na Fakulteti za arhitekturo v Ljubljani, 1960-1961 / *B-programme of the study at the Faculty of architecture in Ljubljana, 1960-1961*
112. Novi slovi, natečaj, 1960 / *New slovi, competition, 1960*
113. Jugoslovanska ambasada Brazilija, natečaj, 1960 / *Yugoslav embassy Brazil, competition, 1960*
114. Center Celja, natečaj, 1960 / *Celje – Centre, competition, 1960*
115. Izvršni svet Slovenije, Ljubljana, načrt, 1960 / *Executive Council of Slovenia, Ljubljana, design 1960*
116. Spomenik NOB, Jesenice, 1960 / *Monument of the National and liberation war, Jesenice, 1960*
117. Tipska stanovanjska hiša Bohinj, načrt, 1960 / *Standard design of a single family house, Bohinj, 1960*
118. Poslovna zgradba Delo, Ljubljana, natečaj, 1962 / *Office building Delo, Ljubljana, competition, 1962*
119. Dve stanovanjski stolpnici na Prašakovi ul., Ljubljana, 1963 / *Two dwelling towers Prašakova Str., Ljubljana, 1963*
120. Urbanistična rešitev turističnega naselja Playa Biron, Kuba, natečaj, 1963 / *Lay-out of the tourist area Playa Biron, Cuba, competition, 1963*
121. Zgradba policije Mole Pladejeva ul., Ljubljana, natečaj, 1965 / *Police Station, Mole Pladejeva Str., Ljubljana, competition, 1963*
122. Srbsko narodno gledališče Novi Sad, Srbija, natečaj, 1965 / *Serbian national theatre Novi Sad, Serbia, competition 1965*
123. Univerza Dubln, Irska, natečaj, 1964 / *University Dublin, Ireland, competition, 1964*
124. Jugoslovanska ambasada Moskva, Rusija, natečaj, 1964 / *Yugoslav embassy Moscow, Russia, competition, 1964*
125. Turistični center Budva, Sv. Stefan, Crna gora, natečaj, delno izvedeno, 1964 / *Tourist centre Budva, St.Stephen, Montenegro, partly realised, 1964*
126. Urbanistična rešitev cilega centra Titove ceste, Ljubljana-Bežigrad, natečaj, 1964 / *Urban design around Tito Street, Ljubljana-Bežigrad, competition, 1964*
127. Zazidalni načrt Varna, Bolgarija, natečaj, 1965 / *Lay-out for Varna, Bulgaria, competition 1965*
128. Regionalni načrt Bled, načrt, 1965-67 / *Regional plan for Bled, 1965-67*
130. Ureditev otoka Tronchetto, Benetke, Italija, natečaj/izvedbeni načrt, 1964-1967 / *Design for Tronchetto Island, Venice, Italy, competition, 1964-1967*
131. Veleblagovnica Beograd, Srbija, natečaj, 1964 / *Department store Belgrade, Serbia, competition, 1964*
132. Gledališče Budimpešta, Madžarska, natečaj, 1965 / *Theatre Budapest, Hungary, competition 1965*
133. Paviljon na svetovni razstavi v Montrealu, Kanada, natečaj, 1965 / *World exhibition pavilion Montreal, Canada, competition, 1965*
134. Hotel Mesarica, Pirano, Koper, Slovenija, 1965-1971 / *Hotel Mesarica, Piran, Koper, Slovenia, 1965-1971*
135. Strojna fakulteta Pristina, Kosovo, natečaj, 1965 / *Faculty for machine engineering, Pristina, Kosovo, 1965*
136. Urbanistični načrt Skopja, Makedonija, natečaj, 1965 / *Urban plan for Skopje, Macedonia, competition 1965*

73 Grobišče talcev Draga, 1952-53, Begunje na Gorenjskem
Grafe trikotnih prizem v naravnem okolju nestavljajo izjemno celoto, ki predstavlja zametek prepoznavne arhitekturne govorice zrelega Ravnikarjevega obdobja v 60. letih XX. stol., izražene predvsem v kompozeciji stolpnic Trga republike v Ljubljani.
The cluster of triangular prisms in untouched natural surroundings make up an exceptional whole, which is the cocoon of Ravnikar's mature language in the 1960s, above all expressed in the composition of the tower blocks at Republic Square in Ljubljana.

83 Dvorana OLO Kranj, 1954-60, Slovenski trg 1, Kranj
Večina kritikov je tteje za najbolje izvedeno Ravnikarjevo delo. Edinstven primer slovenskega regionalizma. Streha z dvema nagnjenima ploskvama bojna v oblikovno izhaja iz pokrivala slovenske narodne noše. Izredni detajli (luči, kljuke).
Most critics count this as the most important of Ravnikar's work. A unique example of Slovenian regionalism. The roof is a floating, folded pyramidic shed, with clear design originates in the hut of Slovenian folk dress. Outstanding details (lights, doorhandles).

90 ČZP Ljudska pravica, 1957-61, Kopitarjeva 2, Ljubljana
Prvi primer poznje arhitekture, ki v mestnem središču prekinja s tradicijo zvezne rešne zazidave. Avtorsko prepoznavni elementi: konzolni nosilni stebri, relefno strukturirano betona. Lahka montažna konstrukcija streh.
The first example of free standing post war architecture. Typical detailing: console on the supporting columns, relief structured exposed concrete. Light, prefabricated, plastic yellow facade.

91 Banka Celje, 1959, Prešernova 27, Celje
V tloris racionalno zasnovan objekt se z oblikovanjem volumna in streh povsem podreja danemu okolju starega mestnega jedra. Zanimiva je reliefno strukturirana betona in poudarjanje nosilne konstrukcije na fasadi.
A rationally designed plan. The volume and roof design are totally subordinated to the surroundings of the old town. Typically structured exposed concrete and the emphasis of the supporting construction on the facade.

100 Trg republike, 1960-1974, Trg republike 1-3, Ljubljana
Največja arhitekturna investicija druge polovice 20. stoletja v Sloveniji. Zreli Ravnikar se tu občutljivo in avtorsko prepoznavno odzove na širši prostorski, kulturnozgodovinski in politični kontekst. Značilnosti: tekoči prostor, diagonala in strlen vogal.
The largest state architectural investment of the 2nd half of the 20th century. The mature Ravnikar, sensitive and individually recognisible, reacted to the broader spatial, cultural historical and political context. Main characteristics: fluent space, diagonal, jutting out corners.

101 Stanovanjska stolpnica, 1958-60, Štefanova ul. 15, Ljubljana
Zasnovani je glomazni betonski jeziček v obsežno betonsko armiranobetonsko konstrukcijo. Konkavna streha lebdi nad stavbnim telesom. Stopnišče je avtorsko prepoznavno.
This is based on a hexagonal plan, which is also a pattern on the exposed concrete facade. The basic load bearing construction is stressed on the facade in the shape of a console. The conical roof floats over the body of the building. Ravnikar's approach is recognisable in the staircase.

103 Gradbena fakulteta, 1960-66, Jamova ul. 2, Ljubljana
Tloris je racionalen in tripartiten. Etaže v prerezu so zamaknjene tako, da na vsako etažo ena s predzaloniranimi v zabodeno traktu pride ena in pol etaže + stopnišče in kabineti na vzhodu. Fasada je betonska, s konzolnimi zaključki pilastrov.
The plan is rational and tripartite. The characteristics are in the moving of the floors; with each high floor with half extra balls in the western part, comes one and a half low floors with staircases and offices in the eastern part of the building. The facade is concrete, with mushroom shaped endings of the pilasters.

104 Banka Kranj, 1961-62, Slovenski trg 2, Kranj
Temelji na osnovi veščostnika, ki se pojlja tako v tlorisni zasnovi kot pri strukturiranju fasade. Poudarjena je modna konstrukcija armiranobetonska konstrukcija. Konkavna streha leži nad
